**BODY OF TIMOTHY SULLIVAN
FOUND IN FREIGHT CAR**
Local Man Had Been Seen About the
Streets Sunday.

The body of Timothy Sullivan, aged thirty-seven, of this city, was found in a freight car, which was standing on the siding at Mill No. 1 of the American Thread company, Monday morning about 7:30 o'clock. Stanley French, an employee of the company, made the discovery when he opened up the car in order that it might be loaded for shipment. The body was found huddled up at one end of the car.

Chief E. H. Richmond and Dr. Owen O'Neill were notified of the discovery and promptly responded. Officer Paulhus was detailed to guard the body until the arrival of the medical examiner or orders from the coroner. As the medical examiners in this section were busy with their private practice at the time, Coroner A. G. Bill of Danbury was called up and he gave orders to remove the body.

A sister of the dead man was notified and she ordered the body moved to a local morgue, where it was examined by the medical examiner who pronounced the cause of death as chronic alcoholism.

Sullivan was last seen alive Sunday afternoon on Railroad street and at this time was sober. It is thought that he went into the car to sleep on Sunday night and owing to his habits in the past his heart became affected which caused his death.

Sullivan was a native of Willimantic and is survived by two sisters, Misses Nellie and Bridget Sullivan, of this city.

thought from that some boy had gone in swimming and had been drowned, but the only things that could be found were a pair of trousers, one stocking and a shirt which were taken to the station house. A thorough search of the nearby section disclosed nothing further.

The chief afterwards stated that it appeared to him as if somebody had taken the clothes from a clothesline and left them there to be called for later. Near the spot where the clothes were found there was a number of boards hidden in the bushes that led the authorities to believe that these had been confiscated by some boys intending to build a shack near the river. The finding of the boards strengthened the belief about the clothes.

No report has been made to the authorities of any missing children.

Glenwood

"It certainly does make cooking easy"

Complete Gas Range attached to the end of Coal Range.

The Glenwood Balanced Baking Damper is far ahead of any other—it is as positive as the turning of a railroad switch—open to start the fire, closed to bake—just this one damper for kindling or baking and best of all, it can't warp or stick.

The Glenwood Revolving Coal Grate is easy to shake at all times, and simply fine for removing clinkers. It is triangular in shape, with three different sides for wear.

The Ash Pan rests on a roller bearing frame—just open door and it rolls out at the slightest touch, neat and clean.

The Glenwood Shelf Under Oven Door is not stationary—it automatically raises and lowers as oven door is opened or closed. It is always level with oven bottom—a great convenience when basting meats or removing food.

The Glenwood Sectional Top is interchangeable—cross pieces can not warp—a wash boiler can be placed at the back as well as in front for quick heating, leaving the front holes free for cooking.

Glenwood Iron is smooth and perfect—the easiest of any to clean—a real delight to the most exacting housekeeper. Get one and you'll be glad ever after.

"There's a Reason"

This Will Remove Hair or Fuzzy Growths (Toilet Tips)

A safe, certain method for ridding the skin of ugly, persistent hair is as follows: Mix a paste with some powdered delatone and water, apply to hairy surface about 2 minutes, then rub off with the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid possible discoloration it is advisable to see that you get genuine delatone.
